SKILLS

PROGRAMMING

Proficient:

Python • C++ • Java • JavaScript

OTHERS

Tools:

Git • Github • TravisCI • Jenkins •

Elasticsearch • Django

EXPERIENCE

TURTLEMINT | SOFTWARE DEVELOPMENT INTERN

Jan 2019 – Present | Pune

- Worked on the Backend engineering team developing and maintaining a new DRF project.
- Wrote tests improving coverage from 0 percent to more than 70 percent. Also worked on the LMS project built with GAE migrating it from Python2 to Python3.

COALA ASSOCIATION E.V. | GOOGLE SUMMER OF CODE STUDENT

May 2019 – Aug 2019 | Remote

- Fixed several issues related to generic coala-bears improving their overall quality.
- Improved coala's package manager to check for outdated and conflicting dependencies.

QUANTSAPP | SOFTWARE DEVELOPMENT INTERN

May 2018 – Aug 2018 | Mumbai, India

- Developed a Machine Learning model for Data Extraction using Named Entity Recognition for optimizing options.
- Developed a platform independent options management system for the company's internal use.

PROJECTS

MASTERCHEF | CODECHEF

Aug 2018 – Dec 2018 | Remote

MasterChef is a desktop electron app powered by CodeChef API and hosted using Alibaba Cloud Services. The application was also an entry for the CodeChef API Hackathon.

OPTIONS OPTIMIZER | QUANTSAPP

May 2018 – Aug 2018 | Mumbai, India

Developed options optimizer with Data Extraction using Named Entity Recognition (NER) on the data extracted from the sites like Moneycontrol, Economic Times Market, etc.
