PROGRAMMING
Proficient:
Python • C++ • Java • JavaScript
Familiar:
Kotlin • Go • Rust • Assembly

OTHERS
Tools:
Git • Github • TravisCI

EXPERIENCE

CODECHEF, DIRECTI | Problem Setter & Software Developer
May 2018 - Present | Mumbai, India
- Problem setter for various official as well as unofficial CodeChef contests.
- Developer for CodeChef's electron app MasterChef based on CodeChef API.

QUANTSAPP | Software Development Intern
May 2018 – Aug 2018 | Mumbai, India
- Developed powerful Machine Learning model for Data Extraction using Named Entity Recognition.
- One of the prime contributors for the Quantsapp's employee user-interface software.

GOOGLE | Code-in Mentor
Oct 2018 – Dec 2018
- Mentor for coala association in Google code-in competition.
- Successfully mentored high-school students for their open-source contributions.

PROJECTS

MASTERCHEF | CodeChef
Aug 2018 – Dec 2018 | Mumbai, India
MasterChef is a desktop electron app powered by CodeChef API and hosted using Alibaba Cloud Services. The application was also an entry for the CodeChef's API Hackathon.

OPTIONS OPTIMIZER | Quantsapp
May 2018 – Aug 2018 | Mumbai, India
Developed options optimizer using Data Extraction using Named Entity Recognition (NER) and Python crawler for the seed of sites. The model successfully delivered results on sites like MoneyControl.
